WHEREAS the Board, within and pursuant to, the Federal Water Pollution Control Act Amendments of 1972, Pub. L. No. 92-500, (commonly known as the "Clean Water Act") and pursuant to said Act and the rules and regulations promulgated thereunder, has issued to [M]'s Discharge Permit No. 012-22020.27 entitled "M. J. Co." an effluent limitation governing the discharge of pollutants into the waters of the United States from the [M] facility located at [Address].

WHEREAS the Board, on the basis of the information and data submitted to it, finds that the conditions under which [M] is discharging pollutants into the waters of the United States are not consistent with the requirements of the Act and the rules and regulations promulgated thereunder.

WHEREAS the Board, upon consideration of the above, hereby finds that [M] has failed to meet the requirements of the permit issued to it and that the discharge of pollutants by [M] into the waters of the United States is in violation of the terms and conditions of the permit.

WHEREAS the Board, in the exercise of its discretion, finds that the public health, safety, and welfare will be served by the imposition of an order against [M] for the purpose of abating the violation of the terms and conditions of the permit issued to [M].

NOW, THEREFORE, the Board hereby orders [M] to cease and desist from discharging pollutants into the waters of the United States in violation of the terms and conditions of the permit issued to it and to take all necessary and appropriate steps to comply with the requirements of the Act and the rules and regulations promulgated thereunder.

IN WITNESS WHEREOF, the Board has caused this order to be signed this day of , 2012.

4. The industry shall maintain Records of water consumed, waste generated, quantity of water treated and disposed of, and submit monthly report to Ro. Trend report.

3. The industry shall maintain Records pertaining to quantity of raw material and waste water used for different purposes within 2 months.

2. The industry shall install water meters with tailor-made facility to assess the quantity of water consumed and report to Ro. Trend report.

1. The industry shall upgrade the existing ETP to meet the ZLD system within 3 months. The details of ETP upgradation and implementation progress shall be submitted to the Board.

Amendment Act 1977

Amendment Act 1986 and under Sec 37(4) of Air (Prevention & Control of Pollution) Act, 1986 and Sec 37(4) of Water (Prevention & Control of Pollution) Act, 1986, the following directions under Sec 37(4) of Water (Prevention & Control of Pollution) Act, 1986 have been issued in the interest of public health and environmental protection.

WHEREAS the Board feels that the existing ETP is not adequate to treat the entire waste water generated at the factory, the Board has decided to upgrade the existing ETP to meet the ZLD system.

NOW, THEREFORE, in exercise of the powers conferred by section 37(4) of Water (Prevention & Control of Pollution) Act, 1986, the Union Government hereby directs the following:

1. The industry shall upgrade the existing ETP to meet the ZLD system within 3 months.

2. The industry shall install water meters with tailor-made facility to assess the quantity of water consumed.

3. The industry shall maintain Records of water consumed, waste generated, quantity of water treated and disposed of, and submit monthly report to Ro. Trend report.

4. The industry shall not discharge treated / untreated waste water into the mankind.

5. The industry shall ensure that the consolidated records are maintained.

6. The industry shall regularly dispose of the ETP discharge to TSDF daily following six copies.

7. The industry shall ensure the monitoring of the boiler and ensure continuous compliance of the conditions issued by the Board.

8. The Board shall upgrade and maintain all pollution control equipment to meet the requirements.

9. The industry shall complete the above directions within the specified time frame.

10. The industry shall ensure that the boiler is kept operational and any further notice is received within one year of its installation.

11. The industry shall ensure the monitoring of the boiler and ensure continuous compliance of the conditions issued by the Board.

12. The industry shall not use wood as fuel in the boiler.

The Board feels that the existing ETP is not adequate to treat the entire waste water generated at the factory, the Board has decided to upgrade the existing ETP to meet the ZLD system.
