TERMS AND CONDITIONS OF THE AUTHORIZATION

General Conditions:

1. The Authorization to C&D Waste facility is issued for a period from 1 year i.e. up to 31.05.2020.

2. The C&D Waste facility shall make applications of renewal at least 120 days before the date of expiry of this Authorization.

3. The C&D Waste facility shall store all construction/demolition waste within the site itself. A proper screen should be provided so that the waste does not get scattered and does not become an eyesore.

4. The C&D Waste facility shall keep segregated C&D Waste into different heaps as far as possible and shall utilize graded C&D waste materials for reusing for the purpose of construction, leveling, making road/pavement etc.

5. The C&D Waste facility shall segregate plastics, broken glass, metals scrap etc., during the process and shall be sent to recycling industries time to time.

6. The C&D Waste facility shall maintain the records of quantity of C&D Waste received / processed and quantity of different materials generated / recycled / reused etc.

7. The C&D Waste facility shall provide with the provisions of Weigh Bridge to measure quantity of waste brought to the C&D Waste facility and to assess the quantity of waste sent for recycle / reuse after the C&D waste process.

8. The C&D Waste facility shall adopt mechanism to facilitate to end-users of C&D Waste for reuse of segregated C&D Waste materials like bricks, stone slabs, timber, conduits, piping railings etc., to the extent possible depending on their condition.

9. The C&D Waste facility shall arrange to provide appropriate number of skip containers/trolleys on hire which may be parked at the site and removed with skip lifters or tractors time to time.

10. The C&D Waste facility shall utilize larger unusable pieces for filling up low-lying areas.

11. The C&D Waste facility shall utilize fine material such as sand, dust etc. can be used as cover material over sanitary landfill.

12. Construction and demolition waste shall be utilized in sanitary landfill for municipal solid waste of the city or region as mentioned at Schedule I of those rules. Residues from construction and demolition waste processing or recycling industries shall be land filled in the sanitary landfill for solid waste.

13. The C&D Waste facility shall obtain clearance from Statutory Depts., and shall renew the same time to time.

14. The C&D Waste facility shall not dispose the processed / unprocessed C&D Waste in habitation clusters, forest areas, water bodies, monuments, National Parks, Wetlands and places of important cultural, historical or religious interest.

15. The C&D Waste facility shall maintain suitable buffer zone around solid waste processing facility by developing greenbelt all around the facility.

16. The C&D Waste facility site shall be fenced or hedged and provided with proper gate to monitor incoming vehicles or other modes of transportation.

17. The C&D Waste facility shall provide approach or internal roads and shall be concreted or paved so as to avoid generation of dust particles due to vehicular movement and shall be so designed to ensure free movement of vehicles and other machinery.
18. The C&D Waste facility shall provide utilities such as drinking water and sanitary facilities (preferably washing/bathing facilities for workers) and lighting arrangements during night hours shall be provided and Safety provisions including health inspections of workers at landfill sites shall be carried out made. Any accident that occurs in facility shall be reported in Form-V to local authority.

19. The C&D Waste facility shall made provision of storm water drains to prevent stagnation of surface water / rain water and to take necessary action to prevent mixing of processed & unprocessed C&D Waste with rain water and avoid joining into drains.

20. The C&D Waste facility shall sprinkle water on processed / unprocessed dusty C&D Waste storage heaps to minimize the dust generation.

22. The C&D Waste facility shall provide treatment facility for treating effluent if any, to meet the discharge norms as per Environment (Protection) Rules, 1986.

23. The C&D Waste facility shall comply with Ambient Air Quality Standards within and around the plant premises and shall meet Water Quality Standards as stipulated in CFE / CFO of the Board.

24. The C&D Waste facility shall provide cladding around the crushing and screening of the C&D waste to avoid dust generation.

25. The C&D Waste facility shall carryout third party monitoring for Ambient Air Quality and Water Quality in regular intervals to ascertain the meeting of standards.

26. The C&D Waste facility shall give wide publicity about the processing of C&D Waste to inform the people to dispose their C&D wastes.

27. Notwithstanding anything content in this Authorization, the Board hereby resolves the right and power to review / revoke any and / or all the conditions imposed herein above and to make such variance as deemed fit for purpose of the C&D Waste Management Rules, 2016.

28. Any other directions / circulars / notices issued by MoEF&CC, CPCB and APPCB shall be followed from time to time.

29. The C&D Waste facility shall furnish Annual Report to APPCB in Form-III by 31st day of July of every year.
