The Member Secretary has welcomed the members of the Committee. After general introductory remarks on the items placed before the CFE Committee, the Committee took up agenda, item wise. The decisions of the CFE Committee on each item are recorded below.

In order to comply with the time limits stipulated by the Government, the Board issued CFE order dt. 07.08.2017 to the industry. After detailed discussions the Committee ratified the CFE order issued.

In order to comply with the time limits stipulated by the Government, the Board issued CFE order dt. 14.08.2017 to the industry. After detailed discussions the Committee ratified the CFE order issued.

ITEM NO. 3  M/s. SMS Pharmaceuticals Limited (Unit-VII), Kandivalasa (V), Pusapatiyega (M), Vizianagaram District – Issue of CFE for Change of Product Mix – Reg.

In order to comply with the time limits stipulated by the Government, the Board issued CFE order dt. 14.08.2017 to the industry. After detailed discussions the Committee ratified the CFE order issued.

The Committee noted the following:

a) The industry is yet to comply with development of green belt of an area of 22% as committed.
b) The industry shall provide storm water drains and storm water collection tank for collection of first flush during rains.
c) The industry has to maintain the records such as daily production details (ER-1 Central Excise Returns), Log Books for pollution control systems and Hydraulic loads of effluent generation and solid wastes generation and disposal.

The representatives of the project proponent attended the meeting. They have informed as following:
a) They have already planted green belt in 10% of area and balance area of green belt will be completed during this season.
b) They will complete the storm water drains during this year.
c) Log books were provided for recording effluent generation & disposal and for solid wastes generation and disposal.

After detailed discussions, the Committee recommended to issue CFE for Change of Product Mix.

The Committee noted that the proposal is for Change of Product Mix without increase in pollution loads.

The representatives of the project proponent attended the meeting and informed that they have paid the balance fee at Regional Office, Visakhapatnam.

After detailed discussions, the Committee recommended to issue CFE & CFO for Change of Product Mix.

MEMBER SECRETARY
MINUTES OF THE CFE COMMITTEE MEETING HELD ON 29.08.2017

The Committee noted that APIIC had obtained Environmental Clearance for the proposed industrial park.

The representatives of the project proponent attended the meeting. They have informed as following:
• Proposed to provide CETP in module wise. Initially 1 MLD capacity is proposed.
• Individual units to pretreat effluent to meet CETP inlet standards.
• They have proposed to transport effluent through tankers from individual units to CETP.
• They have made provision for 15.4 % of total area for development of green belt and the balance area will be developed by individual units.

After detailed discussions, the Committee recommended to issue CFE.

The Committee noted that the proposed project obtained Environmental Clearance for the Medical Devise Park.

The representatives of the project proponent attended the meeting. They have informed the Committee that there will not be any manufacturing activity. Assembling of the parts only is proposed in the individual units. They have proposed to provide a common STP to treat domestic sewage and the treated waste water is used for green belt development, HVAC makeup and flushing. They have already paid balance CFE fee at Regional Office, Visakapatnam.

After detailed discussions, the Committee recommended to issue CFE.

The Committee noted the following:
- The industry is yet to establish remaining facilities such as production blocks, boilers as permitted earlier and the production at present is very less.
- The industry has to develop green belt in the vacant lands available within the premises.
- The industry proposed to discharge LTDS and HTDS effluents – 451.8 KLD against 403.2 KLD as per acreage.

The representatives of the project proponent attended the meeting. They have informed as following:
• A letter has been addressed to JNPC requesting to increase the hydraulic load.
• Till now only validation of products is being carried out and along with expansion activity, scrubbers and VOC meter will be installed by December, 2017.
• The industry committed to develop green belt in the balance area.

After detailed discussions, the Committee recommended to issue CFE for expansion.

MEMBER SECRETARY
MINUTES OF THE CFE COMMITTEE MEETING HELD ON 29.08.2017

The Committee noted the following:

a) The industry shall submit copies of certificate of incorporation issued by the Registrar of Companies w.r.to change of name.
b) The industry has to obtain amendment to EC changing the name of the industry as M/s. Tagoor Laboratories Private Limited.
c) The proponent has to furnish the capacities of the ZLD system proposed.

The representatives of the project proponent attended the meeting. They have submitted the following:

a) A copy of certificate of incorporation dt. 06.10.2016 issued by the Registrar of Companies w.r.to change of name.
b) The details of the ZLD system consisting of 20 KLD MEE and 20 KLD RO system.
c) Copy of representation submitted MoEF for amendment to EC.

After detailed discussions, the Committee recommended to issue CFE with the following condition:

a) The industry has to obtain amendment to EC changing the name of the industry as M/s. Tagoor Laboratories Private Limited.

After detailed discussions, the Committee recommended to issue CFE.

The Committee noted that the industry is yet to comply with some of the Board consent conditions and directions.

The representatives of the project proponent attended the meeting. They have informed as following:

- During expansion proposal they will provide lined storage area for Gypsum.
- They will design and provide Garland Drains properly so that there will not be any flooding of rain water to outside.
- They are discharging about 22% of treated effluent along with once through cooling.
- During this expansion, they are not increasing the permitted quantities of the products. They proposed to increase Sulphuric Acid production and Phosphoric Acid production and reduce their imports.
- They are planning to provide lining to delay pond.
- They agreed to provide 5000 MT Sulphuric Acid storage facility only.

After detailed discussions, the Committee recommended to issue CFE for expansion.

MINUTES OF THE CFE COMMITTEE MEETING HELD ON 29.08.2017

The Committee noted that the proposal is expansion of Runway of the Airport for which EC was obtained.

The representatives of the project proponent attended the meeting and informed the Committee that they are maintaining STP properly and getting analysis done periodically. As per the recent report, parameters are well within standards. They have submitted a copy of the same. They have also informed that they will apply for CFO.

After detailed discussions, the Committee recommended to issue CFE for expansion.

The Committee noted the following:

1. The proposal is only Waste to Energy Project using segregated MSW. There are no Material Recovery Facilities and Scientific land fill site.

2. The area of the site is Ac 6.298 cents.

3. The land is not allotted for SLF yet by Tirupati Municipal Corporation and the project will adhered to the norms mentioned in the SWM Rules 2016 for SLF site selection criteria.

The representatives of the project proponent attended the meeting. The proponent informed the Committee that they are proposing to establish Power plant only in 6.3 acres without Scientific land fill. They have submitted the revised layout plan. They agreed to obtain EC and CFE to the Scientific land fill before starting operations of the Power plant.

After detailed discussions, the Committee recommended to issue CFE for Power plant only.

ITEM NO. 13 M/s. APIIC Ltd., Multi Product SEZ (APSEZ) at Atchutapuram & Rambilli Mandalas, Visakhapatnam District - Amendment to CFE order – Reg.

The Committee noted that in the E.C order zones are not mentioned. However zones are mentioned in the CFE order as per CFE application submitted by the APIIC.

The representatives of the project proponent attended the meeting and requested to amend the CFE order dt.03.03.2012 so that there is no zoning of areas for allotment of industrial plots.

After detailed discussions, the Committee recommended to issue amendment to CFE.

ITEM NO. 14 M/s. Mylan Laboratories Ltd., Unit – 9, Plot No. 5, JNPC, Parawada, Visakhapatnam District - Amendment to CFE order – Reg.

The Committee noted that the Board issued CFE dt.28.02.2017 to the industry for change of Product mix without mentioning by products.

After detailed discussions, the Committee recommended to issue amendment to CFE order dt.28.02.2017 as requested by the proponent.

MEMBER SECRETARY
MINUTES OF THE CFE COMMITTEE MEETING HELD ON 29.08.2017

The Committee noted that the Board issued CFE for expansion dt. 04.01.2016 to the industry and as per CFO dt. 21.06.2016, Organic residue generation is 126 kg/day. As the industry prosected to change the route synthesis of Cholic Acid, there would be an additional generation of 800 kg/day of organic residue, totaling 726 kg/day.

After detailed discussions, the Committee recommended to issue amendment to CFE.

ITEM NO. 16 M/s. Aparna Enterprises, Sy.Nos. 72, 73, 58/2, 58/3, 58/5, 58/7, 58/8, 74/1, 74/2, 74/3, 74/4, 75/2, 75/3, 77/1, 77/7, 77/8 & 78/1, Marturu (V), Anakapalli (M), Visakhapatnam District - Applied for CFE. Rejected at ZO: Visakhapatnam. Industry’s request for reconsideration – Reg.

The Committee noted that the proposal is to replace the existing old crusher with new one at the same place.

The representatives of the project proponent attended the meeting and committed that they will dismantle the existing crusher. The proposed crusher is located in quarry area and there are two more crushers are in operation in the area and they will provide required Air Pollution Control measures to meet the norms.

After detailed discussions, the Committee recommended to direct the JCEE, ZO, Visakhapatnam to issue CFE for expansion with a condition that the existing old crusher shall be dismantled after commissioning of the new crusher as committed during the CFE meeting.

ITEM NO. 17 M/s. Kia Motors Indian Private Ltd., Industrial Park of APIIC, Erramanchi (V), Penukonda (M), Anantapuram District – Reg.

The representatives of the project proponent attended the meeting and informed the Committee that the balance CFE fee will be paid and proposed to dispose paint sludge to Cement industries for co-incineration instead of secured land fill / disposed to outside agencies and submitted copy of details of ETP, RO system, Evaporator and mode of disposal of RO rejects.

After detailed discussions, the Committee recommended to issue CFE with a condition that the paint sludge shall be disposed to Cement industries for co incineration after confirming the calorific value and compatibility.
